

The critics' denial of the dea, that the rerrators hear directly from their scholars. "shyookh" This research is an applied study on the nerratise support of the prophel, sayings, "peace be upon him "that Elbokhari concluded in his book."Sahih Elbokhari".

**Abstract :** the critics deny the hearing of the narrators to each others, in terms of the narrative support of the prophets saying. "Asanid", that Elbokhari concluded in his book"Sahih Elbokhari" despite of the critics' knowledye sometimes of being narrated by Elbokhari himself or even the narrators frank statement of being heard from his seholar, all that is already presented in Elbokhari's book "Alsahih".

So this study answers the following questions;

- To what extent can the range of accuracy of those critics can be considered in their judgenment .
- What are Elbokari reasons and evrdent justification in including such narratine supports- the prophets saying "Asanid" – into his book of Hadith, "Alsahih" .
- Finally whedis the net influence of such inclusion on the cordition- that- high lighits the truth fulress of the narratine supports, that is not only wrfirming the meeting between the narralors and the scholer sheikh but also ensuring the direct hearing from them as well which was later insenbed to Elbokhari.
